Day 5 : Alpine Route

Tateyama Snow Corridor

Murodo

The apex of this tour takes you to unprecedented heights -- an exciting day on various forms of transportation across the beautiful mountains of the Northern Alps! Take the cable car and a bus from your starting point in Tateyama. As you make your way up, you will be able to walk one of the peak highlights of this itinerary: the Tateyama Snow Corridor, which is a veritable wall of snow. At this altitude, the vestiges of winter tower over you well into spring, sometimes reaching a height of 20 meters. Your stop at Murodo offers you an impressive mountain panorama to go with your lunch.

Continuing with a trolley bus tunneling through the sacred mountain of Tateyama itself and the longest ropeway in the entire country, you will get another breathtaking view of the mountain range around you. On the other side of the alpine route is the Kurobe Dam, Japan's tallest. Walk across its observation deck and take in the majestic view of the entirety of its icy surface, a sight that you will remember. Finally, you will exit the Kurobe Alpine Route on the other side, where your driver will pick you up and take you back to Matsumoto.
